

Charles Rick Green, FCSI

“For your determined effort to advance the Institute’s Mission and construction technology through your leadership to develop the Uniform Drawing System and the National CAD Standard while representing the Institute’s interests; for being the motive force and guiding light through times of impasse, negotiating accord among NCS parties; and for tirelessly promoting NCS implementation through advocacy and countless presentations, you are advanced to Fellowship in the Institute on the 1st day of April, 2006.”

Las Vegas, Nevada

CHARLES RICK GREEN, FCSI, CCS, CCCA, AIA, LEED AP, NCARB, SCIP, is an architect with Wilson & Company, an engineering/architectural firm in Albuquerque, New Mexico. He received his Bachelor of Science and Master of Architecture degrees from the University of Michigan. He has more than 30 years of experience and is an acknowledged expert in the preparation of construction documents.

Rick served as the Albuquerque Chapter’s President in 2001. In 1997 he became a member of CSI’s UDS Task Team and the National Institute of Building Sciences’ Facility Information Council as part of an effort endorsed by the American Institute of Architects, CSI, the Federal Government, and numerous other professional and industry organizations to establish the U.S. National CAD Standard (NCS). Rick has also served as chairman of CSI’s UDS

Program Task Team and the NIBS UDS Modules Task Team; and also on the steering committee that governs the NCS Project Committee.

In addition to the articles he has written, Rick’s award-winning NCS programs and workshops have won critical acclaim from attendees and professional organizations across the country. He has received numerous Institute, Regional, and local commendations and awards for his efforts with the NCS, some of which include the CSI Presidents’ Plaque (2005), the CSI President’s Commendation (2001), the CSI Southwest Region’s Henry B. Baume Memorial Award (2003), and CSI Southwest Region Director Citations (2000 and 2004).

In 2006 Rick co-authored an AIA book, *The Architect’s Guide to the U.S. National CAD Standard*.
