

Howard A. Levine, FCSI

“For your exemplary and continuous service to the Boston Chapter and the Northeast Region over the past 20 years; for your dependability as both a leader and counselor, skills you demonstrate with boundless energy, peerless dedication, and infectious enthusiasm; and for the sharing of your technical expertise with so many others in the construction industry; you are advanced to Fellowship in the Institute on the 6th day of June 2008.”
Las Vegas, Nevada

HOWARD A. LEVINE was born in Berlin, NH in 1945. At the age of 16, he moved to Framingham, MA where he currently resides. He attended Northeastern University in Boston and graduated in 1968 with a Bachelors Degree in Business Administration.

Howie started his CSI career in 1985 when he joined Duncan Galvanizing in Everett, MA. Prior to that, he was in the real estate management field serving as Property Manager, Vice-President, and CEO for several Management and Development firms in the Boston area during a seventeen year career.

Howie has been collaborating with the professional community to create quality specifications for corrosion protection and metals coatings for more than two decades. He is frequently called to assist architects, specification writers and engineers with a review of corrosion protection specifications and evaluation of substitution proposals.

Throughout his career, he has promoted the advancement of construction technology by educating the construction community in the proper use and understanding of galvanizing as a method of corrosion protection.

A member of the Boston Chapter, Howie has served at all levels. He has chaired many committees and has upheld a continuous commitment to involvement by being a Board or committee member for 24 consecutive years (and counting). On the Region level, he has chaired various committees and, having been recently elected as Institute Director, will begin his three-year term on July 1, 2008.

Howie and his wife Judy have four grown children (Sheryl, Dan, Andy and Alison) who have given them the greatest gift of all...four wonderful grandchildren (Jordan, Dara, Samson and Susie).
